Development**
CORPORATION

We believe that the positive impact of our efforts starts with an investment in promising people, places and projects. Backed by detailed research, our tradition of success in North Omaha and a strong vision for the future, OEDC will accomplish these goals by working to secure grants, loans and sizable investments.

About Us

Since OEDC was established as a Nebraska 501(c)(3) nonprofit Community Development Organization in 1977, that simple idea has led to significant growth and improvement in the communities we serve. We're focused on leveraging resources to achieve positive changes that contribute to the social and economic success of residents, neighborhoods, and businesses in North Omaha and beyond.

Our Vision & Mission

MISSION: OEDC strengthens the quality of life in North Omaha and for its residents through comprehensive economic opportunities and community development.

VISION: To transform the North Omaha community into a viable, residential, economically successful and vibrant community that enables its residents to grow and live in a prosperous environment.

Our Focus

As an organization, we serve as the developer for our own commercial and residential projects with oversight provided by an independent board of directors. We are the only federally designated Community Development Corporation (CDC) in Omaha – and a federally recognized Community Development Entity (CDE).

Investing for Impact

→ Residential Development

At our core, we are focused on overturning the physical deterioration that has plagued North Omaha for nearly 50 years. With every building we rehabilitate and every housing unit we build, we are working to foster stronger, healthier and safer neighborhoods.

→ Commercial Development

OEDC's mission is to strengthen the quality of life for the residents of North Omaha through comprehensive economic opportunities and community development. Recognized as a systems change leader, it provides frontline insight leadership for transformational revitalization strategies in historic restoration of residential and commercial spaces; affordable housing; small business development; and mid-sized urban job centers.
